

What is a Vuse solo power unit?

Featuring a slick and slim metallic design, auto-draw technology, this VUSE Solo Power Unit comes equipped with an LED battery indicator that glows red during inhale and flashes when the device is in need of charging. VUSE's Solo Power Unit includes one VUSE Solo Battery Unit and one compatible USB charger.

What is a Vuse power unit?

Praised for being a consistent, reliable, and simple vaping system, this VUSE Power Unit supplies all the hardware you need to begin vaping the iconic flavors of VUSE's Solo Menthol and Solo Original (Tobacco) Cartridges.

How long does a Vuse solo battery last?

Each cartridge is nicotine salt-based, and holds 0.5mLs of e-liquid vape juice, blended in the USA. Because of its sleek and slim design, VUSE Solo power units house a 270mAh rechargeable lithium-ion battery that powers the e-cigarette. The battery has a lifespan of about 200 puffs per charge, but may vary depending upon usage.

What is Vuse solo?

First launched in 2013, VUSE Solo was the first truly digital vape pen device to hit the market. The Solo is a cartridge-based vaping system that is simple-to-use and FDA approved. VUSE products are designed and available for usage, solely for adult vapers who are over the legal age of 21.

What is a Vuse solo cigarette?

The VUSE Solo is similar in size and appearance to a traditional cigarette. The power unit has a slim metallic frame and built-in smart tech auto-draw technology, and is only compatible with Solo vape cartridges. Each cartridge is nicotine salt-based, and holds 0.5mLs of e-liquid vape juice, blended in the USA.

Is Vuse solo available in other countries?

Vuse Solo flavors other than tobacco may still be available in other countries. The Vuse Solo is a simple beginner vape kit that comes with prefilled cartridges containing 4.8% nicotine. The Solo is one of two similar kits from Vuse, often called cigalikes or e-cigarettes, because they're patterned after the form factor of a cigarette.
