

Where can I find charging stations?

ChargeFinder is available as an app for iOS and Android. Specific city pages provide a good overview of charging stations in a particular city. Download the app from Apple App Store or Google Play. ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto, and Android Automotive.

How do I find out if a charging station is nearby?

To find out if a charging station is nearby, use ChargeFinder's station page which shows relevant information like charging speed, outlet type, price, and location. Additionally, the "Food and Shopping Nearby" feature helps you find points of interest near the charging station.

What if a station is missing from the charging map?

If a charging station is missing from the map, it is easy for anyone to add it. It is also possible to edit and update information on all existing stations.

Which charging stations are compatible with the ChargeMap Pass stations?

ChargeMap Pass	Stations compatible with the ChargeMap Pass
Charging stations	Stations compatible with Autocharge
Speed of charge	Charging capacity
Slow (3-22 kW)	Ultra-rapid (200+ kW)
3-22 kW	Very rapid (100-199 kW)
Plug type	Rapid (23-99 kW)

How can I check if a charger is available?

ChargeFinder provides live status for all major operators in one place. On the overview, you can see the number of chargers that are available, occupied, or out of order. With a simple click, you can view the price and availability for each charger.

What power level does a destination charger offer?

Destination chargers usually provide an output of 3 kW to 22 kW. The color shades on the map indicate the power level: light orange for 3-7 kW and darkest orange for 22 kW. The most common are fast chargers, shown in dark blue, which provide 50 kW.
