

Westinghouse igen160s portable power station solar panel

What is the Westinghouse igen160s portable power station?

The Westinghouse iGen160s Portable Power Station is a small but rugged off-grid portable generator that supports charging for all your necessities and electronic devices, GoPros, drones, lights, or speakers.

What is a igen160s portable power station used for?

The Westinghouse iGen160s Portable Power Station is designed for outdoor activities like camping, tailgating, or festivals where you need power on the go. It supports charging for all your necessities and more like mini refrigerators, GoPros, drones, lights, or speakers. Perfect for power outages at home or as a solar generator for on the go.

Does the igen160s work with solar panels?

It's engineered without an engine for clean power without the hassle of fumes, fuel, or noise to make it an ultra-versatile silent power source that is maintenance-free. With solar panel capability, the iGen160s will work in unison with any solar panel that has a DC13V-25V/2A Max port.

How much does the iGen160s weigh?

The iGen160s is ultra compact and light at 3.5 lb (1.6 kg), making it incredibly easy to carry and store. It comes with various outlet accessories and includes solar panel capability to maintain its power bank.

How long does a Westinghouse igen160s take to charge?

The control panel houses two household outlets and four USB ports which include a USB-C and Qualcomm Quick Charge 3.0 port for faster charging. Combined with three 5.5 mm 12V DC outputs, the Westinghouse iGen160s is the perfect little companion to take with you anywhere that you can depend on. 6 hrs. 6-7 hrs.

How much power does a Westinghouse solar panel need?

There are two things you need to know when doing this. It has to be a 12V solar panel, and it shouldn't be larger than 100W. Preferably between 50-80W, since the Westinghouse power stations can only handle 2 and 3 amps of input at most (around 36W with the iGen160s and 54W with the iGen200s and iGen300s).
