

Can I use a solar panel with a Yeti 300?

We recommend using the Nomad 50 Solar panel with the Yeti 300. To charge the Yeti 500 or Yeti 700, we suggest the Nomad 100. The Yeti 500 and Yeti 700 can handle up to 200 W of solar input if you use an adapter. Can I use the power station indoors? Yes. Our power stations are safe to use indoors.

How do I charge my Yeti 6000x?

Charge the Yeti 6000X from the sun with our portable solar panels while away from the grid and keep it topped off from a wall outlet when you're home. Integrated MPPT charge controller ensures you're getting the most efficient solar charge possible. Monitor, control, and optimize your power usage from anywhere with Goal Zero Power APP.

What is a goal zero Yeti 6000x pro portable power station?

The Goal Zero Yeti 6000X Pro Portable Power Station is an impressive piece of technology that seamlessly marries capacity, convenience, and reliability. It is a robust solution for a range of situations, from emergency power backup to sustaining off-grid lifestyles and powering remote work sites.

How do I monitor my Yeti 6000x battery life?

If you want, you can connect the Yeti 6000X to your home network and then download the Yeti App to monitor the power station remotely. The app lets you monitor power input, power output, and the remaining charge level. You can also turn individual power ports on or off and select a charging profile to increase battery life.

Is a Yeti power station waterproof?

This portable power station is versatile enough to help out during a power outage at home and tough enough to handle mud, dirt, dust, water, and more. It has an IPX4 outdoor rating and is water resistant and dustproof. Take it on camping trips or to the beach, tailgate parties, and music festivals. Which Yeti Power Station is right for you?

How many watts can a Yeti power station run?
