How many pieces are produced a day in Zhuhai?

Currently, the daily output amounts to 700,000 pieces. In order to meet the ever-increasing demand from our customers, we are building the Great Power (Zhuhai) Industrial Park with a total area of 230 MU. The Zhuhai Great Power Battery Co.,Ltd. occupying an area of 220,000m²; in the first phase of development, has started production since 2003.

What are GPB hybrid lithium automotive starting batteries?

GPB Hybrid Lithium Automotive Starting Batteries are designed with dual-purpose start-stop starting function and deep-cycle lithium solution that can withstand high-heat environments due to their heat-resistant technology. Build with premium LiFePO₄ pouch cells which used by Mercedes and BMW, it can output up to 1800CCA depending on the product.

Why should you choose GPB Lithium Power Sport batteries?

GPB Lithium Power Sport Batteries offers a complete line of batteries to meet all of your power sports requirements.

- o Good charging acceptance and vibration resistant performance.
- o Advanced calcium lead alloy technology, maintenance-free design.
- o The 100% sealed battery is trouble-free and requires zero maintenance throughout its lifespan.

What is a GPG battery?

The GPG series products are manufactured with nano silica gel technology, one of the two valve-regulated battery production technologies used in the industry, and have porous PVC separators and colloidal electrolyte inside. This series can work under high and low temperature, supports cyclic deep discharge, and has a long service life.

The Great Power company is a global professional, experienced lithium-ion battery supplier for the ESS and other various industries, with 20-year experience.

As a subsidiary of Coslight Group, Zhuhai Coslight Battery Co., Ltd. is a Sino-foreign joint venture

specializing in research, production and sales of lithium batteries with polymer lithium-ion battery as its main product. Under the "fresh, ...
